MAYER MIXER

SOIL MIXER TYPE 6002

For the thorough mixing of various soils in the shortest possible time.

During mixing, the soil can be moistened and fertilizer can be added. The open soil hopper can be loaded from three sides. Even when left running for a long time, there is no tendency for separation or for the formation of lumps. Mixing and emptying can be controlled automatically by means of a time switch. The soil mixer can also be used as a soil conveyor.

- Capacity: 1 m³
- Overall dimensions:
L: 3.7 m, W: 1.25 m, H: 2.3 m
- Weight: 830 kg
