

STOLZE CONVEYORS

- ▶ 3 conveyor widths available: 170mm, 210mm and 250mm.
- ▶ 2 options of powered drive units: 48m and 72m.
- ▶ The slave transport conveyors are typically 6m in length (can easily be moved by one person).
- ▶ Extruded aluminium frame is light but strong.
- ▶ Small end drive roller for smoother transfer of pots between conveyor lengths.
- ▶ All conveyor belts have low stands as standard.
- ▶ Well-proven design meeting CE standards.
- ▶ All drive units are variable-speed, direct drive systems.
- ▶ Unique design feature: nylon side strips support the belt, eliminating friction and guiding the belt.

◀ The Stolze STATIC POT DEFLECTOR with multiple roller-wheel system helps to guide the pots around the corners. The whole bracket simply fits onto the extruded slot at the required position.

◀ The Stolze POWERED POT DEFLECTOR transfers all sizes of pots. It simply clips onto the extruded slot along the conveyor, allowing you total flexibility with conveyor figuration.
