

WILLBURG HOTMELT LABELLER

THE LATEST FROM THE WILLBURG RANGE OF LABELLING MACHINES

At last, an effective way of labelling where the label stays on the pot, using an environmentally friendly semi-permanent adhesive.

- ▶ Rapid application: up to 3000 labels per hour.
- ▶ Adaptable for different label shapes.
- ▶ Greater marketing potential: customers can easily identify and choose from plants on display.
- ▶ Labels are very securely stuck to the pot, preventing customer tampering.

- ▶ Increases efficiency at despatch.
- ▶ Two lines of hot glue are applied to the pot and the pre-printed colour label is applied by pneumatic air cylinder.
- ▶ For short runs: also available with glue application only, for applying labels manually.
